**Internship Description:**

Boston Sculptors Gallery (BSG) is a unique venue for exciting and innovative contemporary sculpture exhibitions. Established in 1992, the gallery moved to Harrison Avenue in the SOWA arts district in 2004. Boston Sculptors is a cooperative of 36 members, representing some of the most prominent sculptors of New England. The large gallery space is transformed every month featuring two concurrent solo member exhibitions.

BSG offers one internship for each of the fall and spring semesters for 6 – 10 hours per week. We can not accommodate interns during the summer. The unpaid internship may satisfy credit requirements toward your degree depending on the curricular requirements of the school.

Interns work with the Coordinator and with member artists in any of the following areas: archives, installation, graphic design, marketing on-line and in print, outreach, administration, and sales. This is unique opportunity to work in a non-traditional gallery setting.

**Requirements:**

Interns should be motivated, professional and responsible; able to work independently with some scheduling flexibility for evening receptions and daytime gallery hours. Applicants should demonstrate an interest in sculpture - skills with tools and techniques is desirable.

Application procedure: Email a letter of interest highlighting your strengths and skills and a current resume to [BostonSculptors@yahoo.com](mailto:BostonSculptors@yahoo.com). Please indicate the semester you are available.

Thank you for your interest in Boston Sculptors Gallery.
